PROFESSIONAL PROFILE

Full Stack Developer with solid experience building high-performance web and mobile applications. Passionate about solving complex problems and embracing new technologies, with a proven track record across e-commerce platforms, superapps, B2B products, and large-scale projects.

PROFESSIONAL EXPERIENCE

Machinery Partner

Sep 2023 – April 2026

Principal Software Engineer

- Architected and led the migration of the core company website from a no-code platform to a [Next.js](#) and headless CMS ecosystem
- Developed the mobile application using React Native with Expo, delivering a native experience on iOS and Android.
- Led the development of the first e-commerce platform for Heavy Machinery in the US market.
- Wrote unit tests with Jest and integration/end-to-end tests with Cypress, maintaining high code coverage.
- Built an internal PDF generation service for marketing, presentations, and company use.
- Designed backend and BFF services using Fastify and Elysia (Bun).
- Integrated and built webhooks for ERP connectivity (e.g., Odoo).
- Conducted code reviews focused on quality, performance, and best practices.

Luizalabs (Magazine Luiza)

Dec 2021 – Sep 2023

Senior Software Engineer

- Full Stack development using React, TypeScript, Stitches, and Radix on the frontend; Nest.js on the backend.
- Developed React Native features to create WebViews within Magazine Luiza's Superapp.
- Maintained unit, integration, and end-to-end test coverage above 95% across all projects.
- Delivered new features and internal tools aimed at improving team processes and user experience.
- Configured a CMS for non-technical teams to independently manage promotions.
- Performed code reviews across the squad via GitLab.
- Implemented proof-of-concept projects with GitLab CI and Argo CD.

Corebiz

Jan 2021 – Dec 2021

Full Stack Developer – VTEX

- Implemented features and bug fixes for the Whirlpool/Brastemp website using React, GraphQL, Node.js, and VTEX IO.
- Participated in daily standups with the ECare squad following a Kanban methodology.

- Built UI components from layouts delivered by the Product Design team.
- Conducted code reviews via Bitbucket and documented solutions in Jira.
- Joined product brainstorms and performed stress tests to catch bugs before and after deployment.

UAUBox

Nov 2019 – Jun 2021

Full Stack Developer

- Built features from Figma/Adobe XD mockups using Next.js, Redux, TypeScript, and CSS3.
- Co-created a company-wide Design System using Storybook, TypeScript, and Material-UI.
- Participated in full SCRUM ceremonies: Daily, Review, Retro, and Planning.
- Analyzed Marketing dashboards to guide CRO actions and continuous SEO improvements.
- Maintained and extended the company blog using WordPress, HTML, CSS, and jQuery.

Klabin S/A

Aug 2012 – Aug 2019

Senior IT Support Analyst

- Logged and resolved technical incidents; provided guidance and support to end users.
- Built internal dashboards using Power BI.
- Maintained desktops, laptops, and Dell servers.
- Developed interfaces to automate infrastructure provisioning.
